IT EXPERIENCE

OLD DOMINION UNIVERSITY, NORFOLK, VA

11/2019-PRESENT **COMPUTER OPERATIONS TECH**

- Prepared webpages for online classes
- Verified they are WCAG 2.1 and Section 508 complaint

UNIVERSITY VILLAGE BOOKSTORE, NORFOLK, VA

08/2020

01/2019-03/2020 **TECHNOLOGY SALES REP**

- Perform various retail sales activities in the technology department in a college bookstore setting

DOMINION ENTERPRISES, NORFOLK, VA

09/2012-12/2012 **MOBILE APP DEVELOPER INTERN**

- Created dictionary of real estate terms mobile app to learn Appcelerator Titanium Studio development environment
- Learned Android and iOS development

IT PROJECTS

WEB DEVELOPMENT

Project work in web-based development with CSS, HTML, JavaScript, and PHP.

JavaScript Moon Chart

- Needed to create a moon chart for Astronomy course
- Needed to create website for JavaScript course
- Combined both into a single project with permission of both instructors

Luray Caverns PHP Responsive Photo Gallery

- Needed to create a rock chart for Earth Science Lab
- Created photo gallery of different kinds of rocks during trip to Luray Caverns of Luray, Virginia
- Gallery intentionally left incomplete to demonstrate PHP error handling skills

Homework in Elementary School

- Tried my hand at creating presentation without using Microsoft PowerPoint

MICHAEL RAGSDALE

WEB & DESKTOP DEVELOPER

- Presentation discusses Homework in Elementary School and why it's bad

ADA Safety in the Workplace

- Refined the layout of the presentation
- This is about Target Brands, Inc. and their ups and downs with the Americans with Disabilities Act

Hot Coffee: Liebeck v. McDonalds Restaurants

- Uses the same *Presentation Software* layout as *ADA in the Workplace*
- Talks about the infamous McDonald's hot coffee lawsuit, including many popular misconceptions

University Accessibility Guide

- Development Kit designed to show off the accessibility features of a building
- Created as part of a Hackathon
- Created because my university's existing accessibility map was (at the time) over 10 years out of date

DESKTOP DEVELOPMENT

Project work in Visual Basic (both classic and .NET). Familiar with C++ as well as some Java.

StoreTrainer

- Tool I wrote using classic Visual Basic 6.0
- Gets my feet wet in the niche retro PC gaming market by developing on Windows NT 4.0 and Windows 98 Second Edition
- Still runs on modern versions of Windows 10
